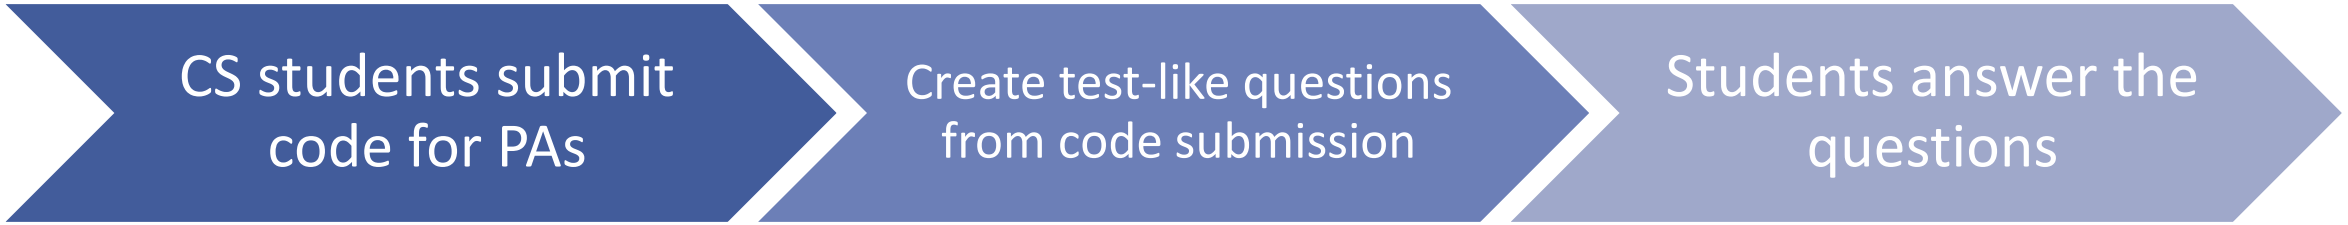
Questions on Learner's Code (QLCs): reviewing strategy for CS students

- Previous studies: CS students struggle to explain code they wrote



My study: use LLMs to generate QLCs from peer student code

Q: What are the incentives?

- Extra Credit (+0.5 on your final grade!)
- **<u>Additional study resource for exams</u>**
- Low time commitment
- Participate in feedback for future app development

Q: Can you participate in the research study?

Eligibility: at least 18 years old and in CS 1101 Spring 2026

Q: Can you get extra credit if you aren’t eligible?

If you are not eligible, you can still complete the tasks for the extra credit; for research purposes, the data will be grouped separately. Reach out to me for more clarification about this.

Q: What do you need to do? (Part 1)

```
// ===== File: RobotSteps.java =====
import java.util.Scanner;

public class RobotSteps {
    public static void main(String[] args) {
```

- Access the website application I built and finish **at least 90%** of assigned weekly exercises fully
  - An exercise will have 5 MCQ about a student submission
  - Each PA has an exercise; exercises due before next PA deadline (will send reminder)
  - After each question is answered, give quick ratings on question quality

5 | 7

6 | 4

Correct!

If you believe the question itself is incorrect, please click here right now to send an email to Helen. Once you've sent out that email, please continue with the rest of the exercise. You'll get a response regarding the issue within 24-48 hours.

Did the code seem like it was generated by AI? Did it use any methods or syntax that wasn't covered in class? *

Regarding the clarity of the question, it was * — Very hard to understand — Very easy to understand

Regarding the helpfulness of the question, it was * — Not helpful for understanding coding concepts. — Very helpful for understanding coding concepts.

Continue

Q: What do you need to do? (Part 2)

The exercises are easy to understand. *

Strongly Disagree | Disagree | Neutral | Agree | Strongly Agree

The exercises are asking reasonable questions. *

Strongly Disagree | Disagree | Neutral | Agree | Strongly Agree

The exercises are helping me better understand the programming assignment code they are based on. *

Strongly Disagree | Disagree | Neutral | Agree | Strongly Agree

The exercises are overall helping me better understand the Java programming language. *

Strongly Disagree | Disagree | Neutral

Please give any additional feedback you have about the exercises.

Your feedback

- Provide general feedback on the QLC experience
  - Strongly Agree – Strongly Disagree
  - Will be assigned every other week (ex. PA06 has feedback form, PA07 does not, PA08 has feedback form…)
  - Due when its corresponding PAs are due

Summary of Requirements

Required Tasks	Description	Extra Time
Submit your PAs	You do that already!	+0
Finish **at least 90%** of assigned weekly exercises fully	Due before next PA deadline MCQ about a student submission Give quick ratings on question quality	+5-20 minutes per week
Provide feedback on overall experience	Feedback form assigned occasionally Due at the same time as corresponding exercises	+1 minute per week

Note: you must do all these tasks in full to receive extra credit. We will not provide partial credit.

To participate:

1. **https://redcap.vumc.org/surveys/?s=XEFPCEMRC88947AR**
2. **https://helen.cumberland.isis.vanderbilt.edu/**

Both items due before **March 4th @ 11:59pm!**
